Top 5 Genre in Sales/Revenue

Rock Genre Comes in First Place For most Selling and profitable Genre and in Second place Comes Latin Genre

VIP Customers

Our top 9 VIP customers represent a significant portion of our Brand engagement and revenue. These loyal users demonstrate high retention rates and provide valuable insights into the preferences of our most committed audience segment.

Customer Behavior by Genre

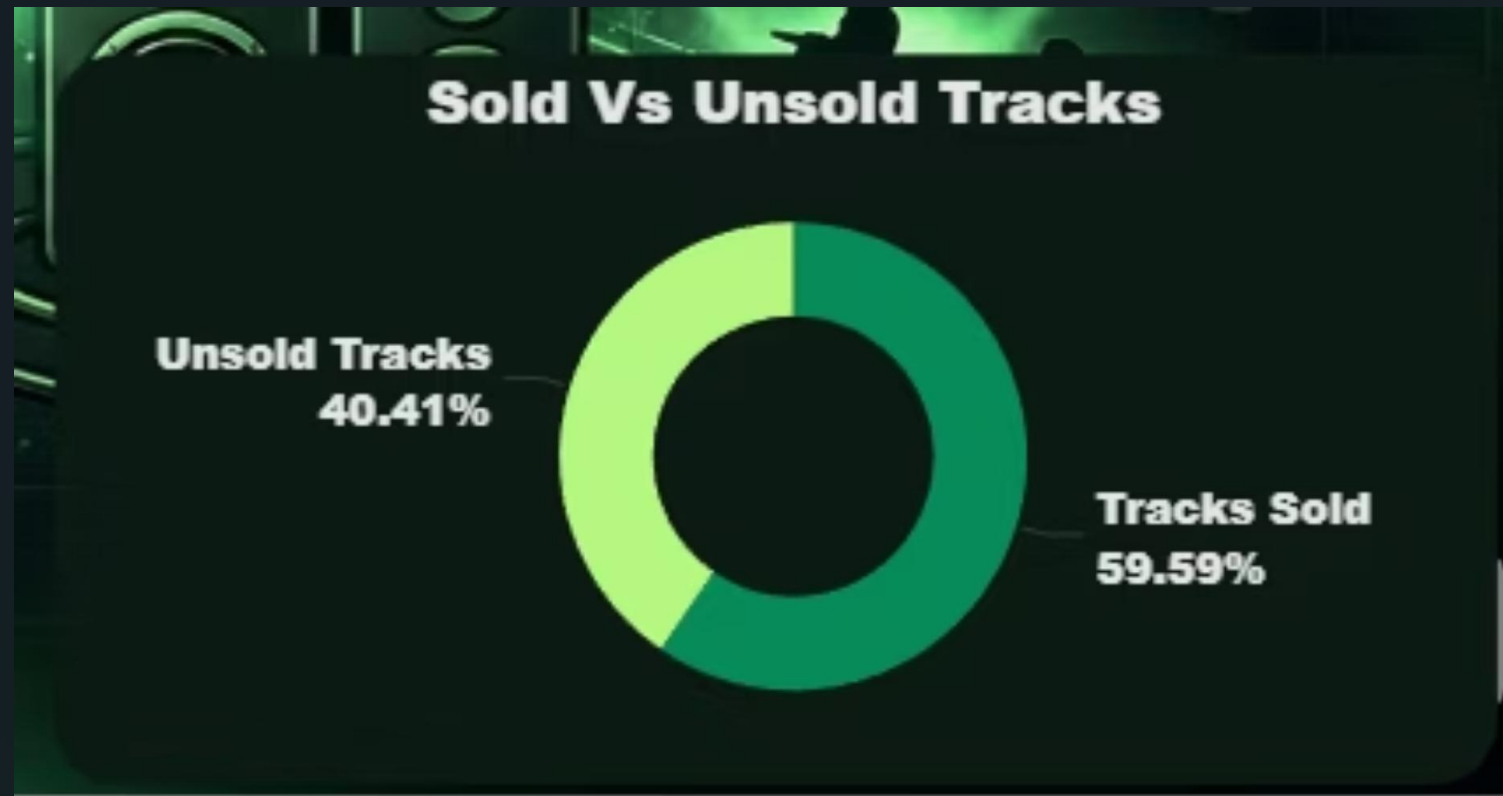

By Analyzing top 5 genres Requested By customers we will find that top requested music genre was **Rock** as all the customers request to get it so that we need to invest in it and this define why it's profitable

Top 5 Markets

here we analyzed the markets from which customers came from to check top 5 markets in revenue in order to invest in them

Sold Vs Unsold Tracks

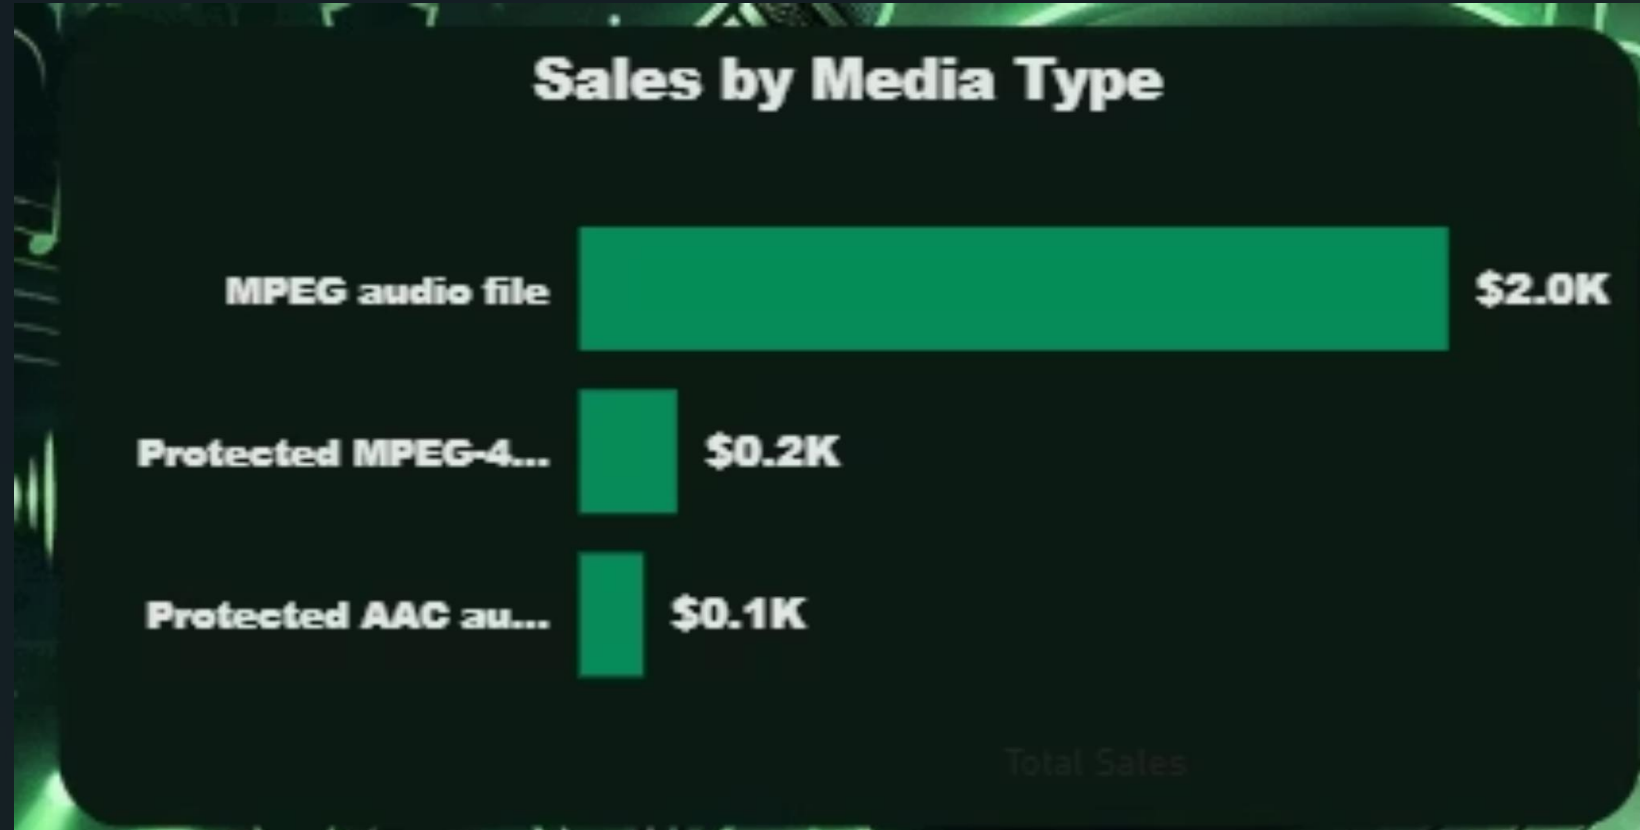

As long as we are a music brand it isn't mandatory that we have all the tracks sold and in our analysis here we focus in comparison between how many tracks are sold and how many aren't sold and we will find that unsold tracks are not small percenttage it is **40.41%**

Revenue by time

In This Comprehensive Analysis We have categorized Tracks Time by Second and we have found that all the Short Timed Tracks comes in first place and it is ≤ 1000 while in second place comes Long Tracks which is ≥ 2000 and at third place medium tracks from 1000 to 2000 second track

Sales By Media Type

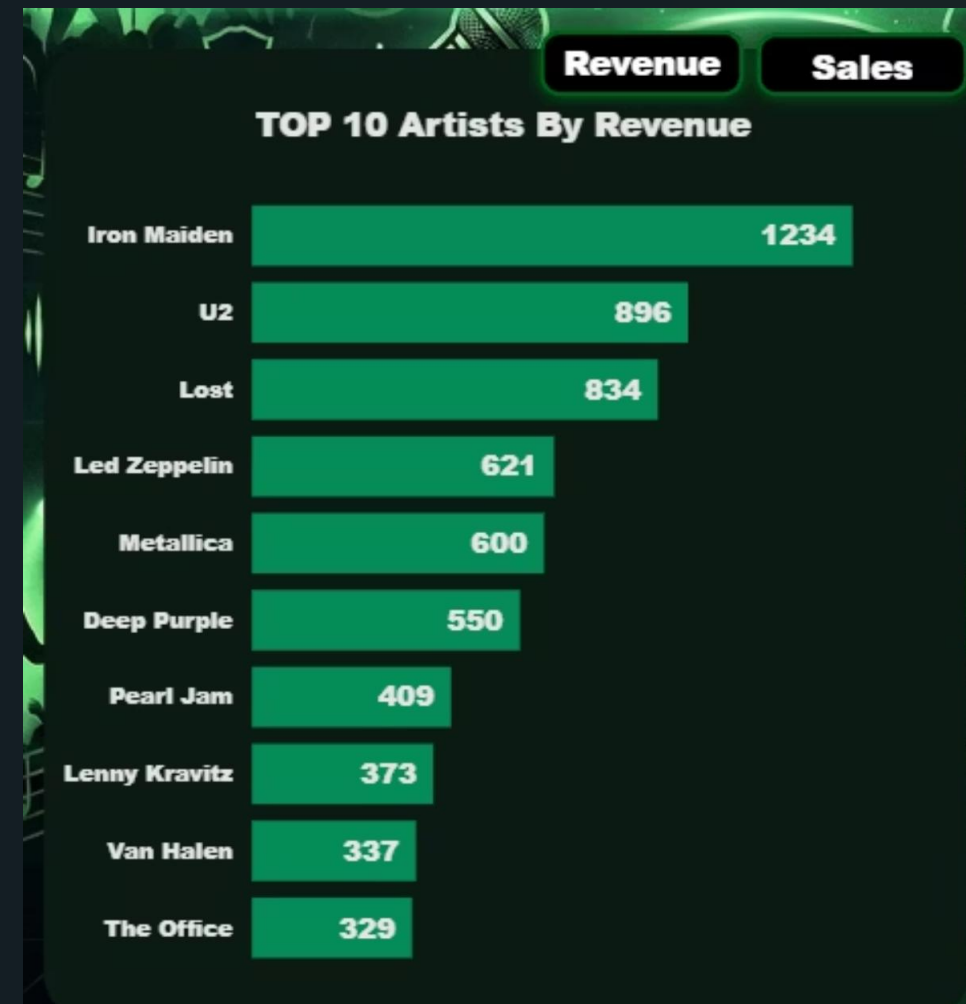

In This Comprehensive Analysis We have analyzed Media types used to produce tracks and we have found that preferred type for our customers and comes in first place is **MPEG AUDIO FILE**

Most Selling Albums

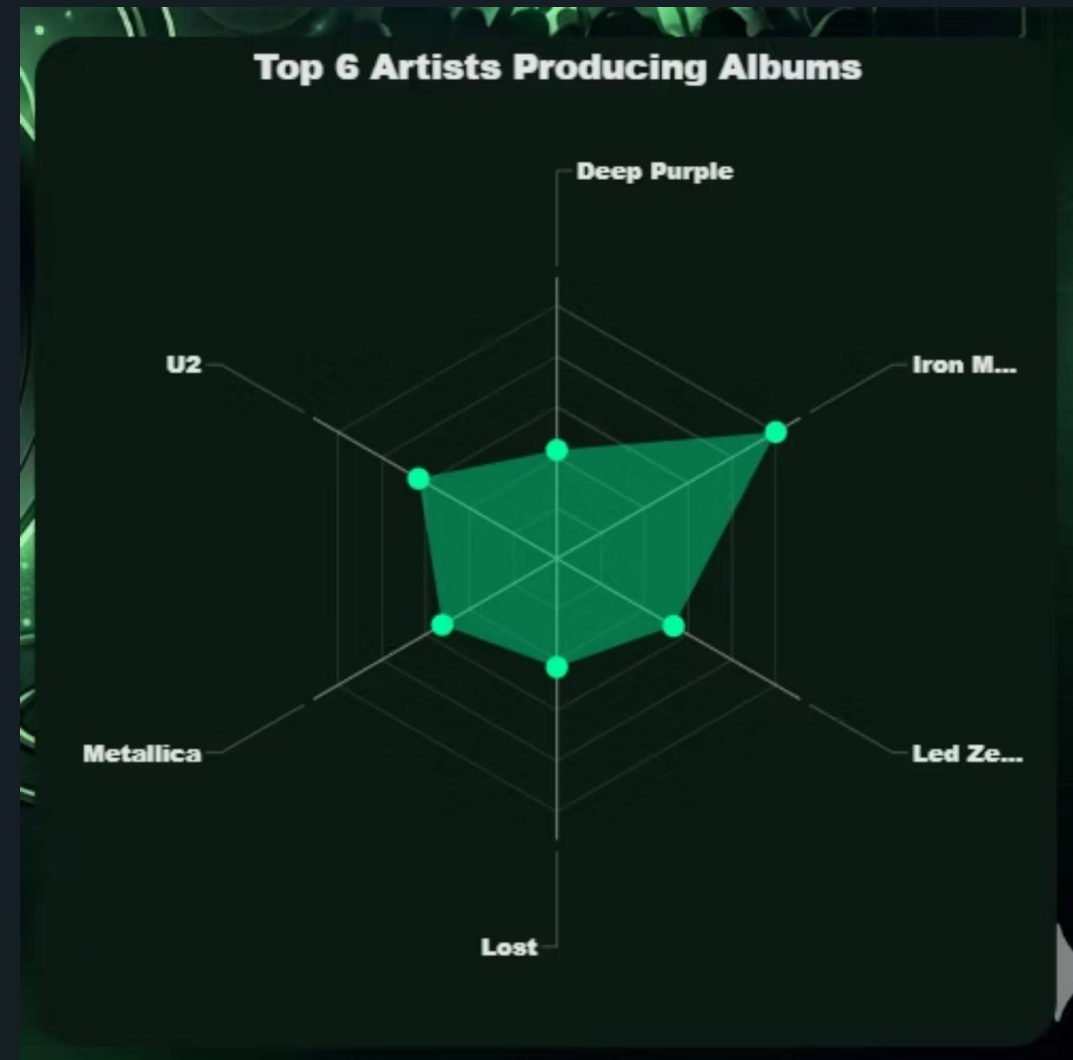

In This Comprehensive Analysis We have analyzed Albums and discovered top 3 selling albums and we found that most selling one is **Battlestar Galactica**

Top 10 Artists

Here we have reached our final Stage Which is artists analysis in first 2 chart here we have analyzed to 10 artists and we have found that some artists differ in sorting between sales and revenue while the top 1 in both is **Iron Maiden** as our rockstar artist of the store same as second one **U2**

Top 6 Artists Producing Albums

Comprehensive analysis showed us that most productivity artist is **Iron Maiden** Producing **213** album and in second place is **U2** Producing **135** Album

Recommendations

Strategic Genre Investment

Allocate resources and marketing efforts to the **Rock and Latin genres**, as they consistently demonstrate high sales and revenue potential.

Market Expansion Focus

Prioritize investment and targeted campaigns in the **top 5 identified markets** to maximize revenue and customer acquisition.

Unsold Track Strategy

Develop and implement clear strategies to address the **40.41% unsold tracks**, potentially through promotional bundles, curated playlists, or targeted advertising.

Artist Collaboration & Promotion

Leverage the popularity and productivity of top artists like **Iron Maiden and U2** through exclusive content, collaborations, and amplified promotional efforts.

Media Type Optimization

Continue to prioritize and optimize content delivery for the **MPEG AUDIO FILE** media type, which is the preferred format for our customer base.

Thank You
